Benjamin Barons Esq

Brunswick the 17th June 1766

The favor of your Letter of the 27th of last Month I received the 1st Ins^t. As the Circumstances of the Times does not so immediately require Expedition for public Dispatches as before the Repeal of the Stamp Act; I have Ordered My Secretary to inform Mr. Burgwin, I have no further Occasion to subscribe for a Messenger to go from Wilmington to Charles Town. Till I see a difference of Behaviour among the Gentlemen of that Borough, I cannot expect any Proposals I should make agreeable to your Plan, will meet with their proper Effect.

I send You inclosed by this Opportunity the Public Dispatches for the Governors of the Southern Provinces, as also Two Letters for the Captains Foley and Fanshawe;¹ they were sent inclosed to me by Sir Henry Moore, with a desire that I would forward them to Charlestown. I should be glad to hear of your Receipt of the above Dispatches. I am &c.

¹Efforts to identify Captains Foley and Fanshawe have been futile.

William Tryon
to John Stuart

John Stuart Esq, Superintendent &c

Brunswick 17 June 1766.

I had the Satisfaction to receive your Letter of the 28th of last Month by M^r London with a Cherokee Talk and an Extract from M^r Cammeron's Letter; I now wait only for M^r Palmer the Surveyor General coming into Brunswick from Bath Town to hold a Council when I shall communicate the whole of Your Correspondence, and hope by the Time you promise me with a Visit to be able to Accomodate the Requisitions of the Indians to the Satisfaction of All Parties. If the Line the Cherokees propose to be run is continued in a Straight Course from Reedy River to Chiswell's Lead Mines. I am informed that a Considerable part of Mecklenburg and great part of Rowan Counties will be left to the Westward of the said Line, and consequently a large Body of Inhabitants will be shut out of this Province; I therefore think the first propositions of the Indians the most easy to be affected Vid^t a north Course to be run from Reedy River to the Mountains and from thence a Straight Course to the Mines; but this you will be a better Judge of when I have the Pleasure of shewing you the Rough Sketch I have obtained of Our Western Frontier Counties.
